Center for Entrepreneurship, Mihaylo School of Business

Mentors serve a vital role in every CSUF Entrepreneurship class. In our consulting classes, students form teams to complete a comprehensive consulting report for a client and the mentor is with them throughout the semester helping them apply what they are learning in the classroom with the client's real-life situation. In our new venture courses, mentors help their student teams in the creation of a business plan and, hopefully, in the actual launch of a business.

Mentors are asked to attend class usually between five and ten times over the course of the semester for about an hour each time (each professor has unique expectations, please see attached). Some mentors are asked to do site visits to a client's place of business and most mentors will receive emails or phone calls on an ad hoc basis from their student team. Being a mentor is a rewarding experience as mentors get to see the growth in their students from the start of the semester to the end.

Classes started this week and mentors may be asked to attend as early as next week. (Unless otherwise noted, classes will be held at the Fullerton campus.)
The classes featuring consulting projects are as follows:

Management 460 - Lean Startup Entrepreneurship

If you can be a mentor, please let me know and include your physical mailing address so that I can mail you a parking pass for the semester (Please note, we now can only make requests for permits once we have confirmed a mentor since that mentor's name must now go on every permit; we can now also do print on demand parking passes if you prefer or you need to attend within the next week). And please do not hesitate to get in touch with us if you have any questions.
