

# OLLI Parking Tips

## Tips for Members with Disabilities

### Disabled Person Parking Spaces in Lot G

Lot G (just west of the Yorba Linda Blvd. entrance to the campus) has quite a few disabled person parking spaces, located just across West Campus Drive opposite the stadium entrance, and very close to the OLLI Trolley pick-up point. It turns out those spaces are almost never used. Since they are so close to the OLLI Trolley, they are relatively convenient for OLLI members, particularly when disabled person parking spaces close to the Ruby Gerontology Center are few and in high demand. If you have a California disabled person placard, these spaces are tailor-made for you.

**Normally, mostly vacant handicapped placard spaces in Lot G near OLLI Trolley stop**

### OC ACCESS

OC ACCESS is a shared-ride shuttle service of the Orange County Transit District for those who are unable to board or exit a fixed-route OC Bus, unable to get to a bus stop or unable to understand how to get an OC Bus. The cost is \$3.60 per one-way ride, and a caregiver may ride free. Prospective riders must submit an application, which can be obtained by calling (714) 560-5956 or online at: [http://octa.net/uploadedfiles/Files/pdf/access\\_app.pdf](http://octa.net/uploadedfiles/Files/pdf/access_app.pdf). After completing the application, you must call for an in-person assessment. More information is at <https://www.octa.net/Getting-Around/Bus/ACCESS-Service/Overview/>.

Direct the driver to enter and exit the campus either from the Yorba Linda Blvd. entrance (North Campus Drive/Associated Road) or the Nutwood Avenue entrance (Folino Drive) to East

Campus Drive along the 57 Freeway to the Ruby Gerontology Center. The official drop-off/pick-up point at the Ruby Gerontology Center is at the main entrance of the RGC in Lot J (east side of RGC). See the University map at <http://parking.fullerton.edu/>.

If you have any questions about parking tips, contact the OLLI office at 657-278-2446 or [olli-info@fullerton.edu](mailto:olli-info@fullerton.edu) or Parking Mitigation Chair Mike Stover at [stovermw@gmail.com](mailto:stovermw@gmail.com).
