

OLLI Parking Tips

Monitor Available Parking Spaces

You can see the number of spaces available at key CSUF parking lots or structures right now in real time. Just click/tap the following online site address (URL):

<https://parking.fullerton.edu/parkinglotcounts/android.>

CSUF continuously monitors available spaces in the following lots/structures:

- **EvFree Church Parking Structure** (off-campus) – Located at First Evangelical Free Church at 2801 N Brea Blvd., Fullerton just north of E. Bastanchury Road.
- **Lots A & G** – Located along Yorba Linda Blvd. from the corner of Yorba Linda and State College Blvds. to the Associated Road campus entrance.
- **State College Parking Structure** – Located off State College Blvd. at Gymnasium Drive.
- **Eastside Parking Structure** – Located at the end of Lot E along East Campus/Folino Drive.
- **Nutwood Parking Structure** – Located on Nutwood Ave.

Note: Space monitoring is accurate only for campus parking structures, not lots. For lots, use the monitor as a general indicator of space availability.

Past experience indicates that CSUF student attendance drops off after the first month of a semester, and spring semester enrollment is traditionally lower than fall semester, providing additional parking relief. After the first month parking spaces should be readily available in Lot G up to 9 a.m., and in Lot A at later times. During the first month, consider arriving on campus no later than 8:30 a.m., particularly during the peak attendance days of Tuesday, Wednesday and Thursday.

Keep this email in your email inbox, and when you get to the campus, pull over and tap the above URL to check the number of spaces available in each of these parking facilities.
