

iPhone/iPad Essential Training

Browsing the web
via Safari
October 18, 2018

Bob Newcomb

1

Basic Layout

iPad has much more space to show things

Favorites, tabs and navigation is on the top
of the screen

iPhone has a much smaller screen so many
things are on the bottom of the screen or on
another screen

i.e. tabs are pages on another screen

2

Address/Search Bar

They are combined!

As an Address bar

go directly to websites

As a search bar

uses search engine (Google, Yahoo, Bing or DuckDuckGo)

Highlighted in blue?

Accept it with return or type to replace it

3

Moving around

Scroll down

Return to top of page

Tap top of screen twice

Double tap to make column fit screen

Double tap to return to regular page

4

Background vs Tabs/Pages

Background web pages

sequential history where you can go back and forth

< or >

Tabs (or Pages) open a new tab where you can still have background web pages

5

Tabs on iPad

Create a new Tab

+

Long press link to open in New Tab

Navigating and deleting Tabs

6

Pages on iPhone

Add a Page

Pages icon (2 overlapping squares)

+

Navigating and deleting Pages

7

Bookmarks

Create them with Share icon

“Regular”

Favorites

Go to them with Bookmark icon

press on it to make bookmarks appear and again to make it disappear

bookmark column is on the left

8

History

Click on the clock icon on the right

This keeps a long history of your web page activity and searches

Clear deletes history, searches and cookies

9

Safari Settings

Search Engine choice

Passwords (if you use keychain) in iOS11, this is in Settings > Accounts & Passwords

Block Cookies

Clear History and Website Data (cookies)

look under Advanced to see what sites have saved a cookie

Autofill

10

Reading List

Alternative to Bookmarking

Saves web page for off line reading

Go to Settings>Safari

Save with Share icon/Add to Reading List

View from Bookmarks, Reading list is the middle column (Harry Potter glasses)

Unread or All view

In **Settings** → **Safari** → (Reading List) **Automatically Save Offline**

11

Reader

Shows only the good stuff in an article

Look for the 3 ½ lines at the left of the address bar

tap it to turn on reader.

tap it to turn off reader.

Persistent Reader View

hold down it down and select this website or all websitesr

Persistent Reader View (Long press Reader View Icon)

12

Privacy

Privacy Mode

Pages/Tab

Private / Done

shows bars at the top in gray

Will not save to regular history

Will not let web sites use (keep) cookies

Will keep last used private pages unless you close them

13

iCloud tabs

Macs, iPhone and iPads

In Settings/iCloud Safari must be turned on, on all devices

If the tab is left in Safari on one device the tab is available to the other devices

14

Form Auto-fill

Settings → Safari → AutoFill

Optionally keeps

your contact info

credit cards

15

Keychain

Keeps passwords for web sites (and since iOS 11, apps)

Settings/iCloud/Keychain/ and turn it on

16

Passwords

**Settings → Accounts & Passwords → App
& Website Passwords**

Your Passcode is needed to see the
passwords

Can be used to “remember” forgotten
passwords

(Here is another reason not to share your
device's passcode)
