All or by app

17

# Troubleshooting

## Force-Quit Apps

Double click Home button and flick up on the app you wish to close' or

Slide finger up from below the screen and pause mid screen, then flick up on the app you wish to close.

## Restarting

### Most devices

Hold sleep awake and slide bar to shut down.

Hold sleep awake to start up.

### iPhone X

Click up volume, click down volume, then hold side button

## Soft Reset

### Most devices

Hold down on Sleep Awake and Home button until Apple icon appears

### iPhone X

Click up volume, click down volume, then hold side button for 10 seconds

18

# Troubleshooting

## Resetting

Settings→General→Reset→Reset all Settings

Settings→General→Reset→Reset Network Settings

## Check for updates

## Erase & Restoring (seek help if you are at all squeamish)

(Do this when you give or sell your device)

Settings→General→Reset→Erase all Content and Settings (This is a major step. Be sure you have a backup first.)

Sometimes requires plugging into PC or Mac and from iTunes clicking restore
