Limit: 54

Signups begin for OLLI members only: 10/2/2023

Signups begin for OLLI friends and family: 10/9/2023

Deadline: 10/27/2023

The Griffith Observatory is Southern California's gateway to the cosmos. We will see live shows in the Planetarium; explore multiple astronomy exhibits, each focusing on a unique aspect of observation; and weather permitting, look through telescopes and enjoy amazing views of Los Angeles and the Hollywood Sign.

Please indicate on the coupon below when you would like to see each of these two planetarium shows:

- 1) Centered in the Universe – Travel through time and space back to the big bang and through a universe filled with galaxies to find our cosmic origins. Showing at 5:15 PM and 7:45 PM.
- 2) Signs of Life - An exploration of what it took to put life in the universe, including examinations of Earth, Mars, the moons of Jupiter and Saturn, and planets beyond our galaxy. Showing at 4:15 PM and 6:15 PM.

For more information about the shows: <https://griffithobservatory.org/exhibits/samuel-oschin-planetarium/>

Starting at 7:00 PM, if the skies are clear, we will be able to look through the historic Zeiss telescopes from the Observatory's rooftop dome, and a more modern telescope on the front lawn. Knowledgeable demonstrators will be available to guide us in observing. <https://griffithobservatory.org/explore/observing-the-sky/>

We can purchase dinner at Wolfgang Puck's Café at the End of the Universe, on the lower level. The Café closes at 8:00 PM. It is a cafeteria-style eatery, offering several daily hot-food options, an abundant self-serve salad bar, and a number of convenient Grab-n-Go food and drink options.

Please contact one of the coordinators if you have questions or need accommodation for special needs:
