We will travel to Los Angeles to visit the spacious Science Center, featuring up close viewing of the fantastic Space Shuttle Endeavor, with videos highlighting past missions and the crews who flew them. In addition, there are other fascinating exhibits on air and space travel, from the Wright Brothers' 1902 glider to modern military aircraft and space capsules.

There also is an excellent exhibit on the earth's ecosystems and many other detailed, informative and interactive attractions.

Please bring your membership badge. Masks are recommended on the bus.
