JOIN US AS WE VISIT...

one of the busiest airports in the world - Los Angeles International Airport (LAX) - for a behind-the-scenes airfield tour. See LAX Historic Hangar 1, ongoing construction projects, various aircraft like the A380 and Dreamliner, cargo, and corporate jet operations. We also will visit the Flight Path Learning Center & Museum, which features exhibits from the golden age of flight in Los Angeles to the recent history of the southern California aerospace industry. The museum also features a vintage DC3 plane as well as one of the largest collections of flight attendant uniforms in North America.

We will head to The Proud Bird after the airfield and museum tour for lunch on your own where a multitude of dining options are available with incredible views of planes landing at the airport.

This trip is handicap accessible.

Please contact Trip Coordinator Bill Sampson ([windowbill@aol.com](mailto>windowbill@aol.com)) for handicap needs and additional information.

PLEASE BE AWARE:

Because we will be visiting areas of the airport not usually open to the public, the TSA and LAX are requiring that each participant provide their drivers license or passport number to them through OLLI prior to being allowed on this trip. You will be required to have these documents on you at all times. The Olli administration office will make copies of your official ID. **Remember, you must keep that same ID with you at all times during the tour.**

All sign-ups for this tour are being done in the OLLI Office, Room 7. Please bring your ID or passport with you when signing up.
