

Landscape in Water Soluble Pencils
Drawing For the Fun of It
April 16th & 23rd, 2025
Marsha Linsley

Goal: Learn to use the water soluble pencils for quick landscape compositions in preparation for going to the Arboretum.

Materials: All purpose paper and/or watercolor paper. I will use Faber Castell water soluble pencils 2B (hard/light), 4B (medium) and 6B (soft/dark). Paint brushes: small, medium, large, and a fan brush if you have it. A water brush. A water container. Paper towels or tissues. A natural sponge for texture. You could also use water soluble colored pencils if you prefer. A couple pieces of scrap paper.

YouTube Videos that show 2 different methods of using this medium:
